CD-ROM USER'S MANUAL

Before you use this CD-ROM

When you want to use this CD-ROM, please just insert this CD-ROM in your CD-ROM drive. The CD-ROM automatically starts by itself and the main (index) page will appear on your web browser such as MS Explore, Netscape or whatever web browser you use. When the main page appears on your web-browser, choose the menu on the left to view or use specific contents you want, just as you visit a website and browse through web pages of the website.

As this CD-ROM has this auto-run feature, you do not have to install any special software or copy the contents of CD-ROM to your hard disk drive. On most of operating systems of Microsoft with web browser, you can see the main page as you insert the CD-ROM in your CD-ROM drive.

If your operating system does not allow this auto-run feature and the main page does not appear on your web browser, please find index.htm file in the root directory of your CD-ROM drive. If your CD-ROM drive is d:, then you can find this index.htm file at d:\index.htm. Then double click the file or open this index.htm file with your web browser. As the contents of CD-ROM is written in HTML format which is the today's standard format in the internet world, it is operating system independent and any browser with HTML compliant can view the contents without installing any additional software to view the contents of this CD-ROM.

If you have any trouble in opening and viewing the files in your country or using this CD-ROM, please contact us with webmaster@koica.go.kr.

Using this CD-ROM

1. System Requirements

. Hardware Requirements

CPU : Intel Pentium 266MHz (300MHz or above recommended)
RAM : 32MB (64MB or above recommended)
CD-ROM : x16 or better (x32 or above recommended)
Monitor : 14" Color Monitor with 800x600

. Software Requirements

Operating System : MS Windows 98, 2000 or XP
Web Browser : MS Explore 5.0/ Netscape 4.5 or above
Windows Media Player 5.0 or above
Macromedia Flash 4.0 or above
Adobe Acrobat Reader 4.0 or above

2. Other Needed Software to view the included files

Even though all of the contents are written in HTML format, some of included files such as documents used in lectures and seminars or multi-media video files are Microsoft MS Word, MS Power Point, Adobe Acrobat PDF, Windows MPEG, WMV media files or Macromedia SWF flash files. You can open these files with MS Word, Power Point or Adobe Acrobat Reader or other needed software. We have made some links such as Adobe Acrobat reader, Windows Media Player or Macromedia Flash for you to download or we included files or components to open these files. Please click **DOWNLOAD** on the upper right corner at the main (index) page to download or visit websites to download these files or components.

Also, if some of letters in the text are scrambled with strange characters in MS Word, Power Point or Acrobat PDF files with your own language, please check the fonts and the character sets whether the file is using Korean fonts or character sets and the websites of the software companies to download needed fonts to view these files.

3. Other possible troubles or problems due to hardware

If CPU, RAM or CD-ROM of your computer is rather lower model, then it may take some time to view the flash, image or media and other files. Then please first check the CD-ROM with other newer machines such as computer with Pentium-III 600MHz or higher, 126MB RAM and x32 or above with recent versions of operating systems and web browsers. If you can view the contents with the computer as above, your computer needs additional RAM, higher speed CD-ROM or CPU.
